All RBP-machines and deblistering tools are a testimony to our comprehensive know-how. We only use carefully selected and thoroughly tested quality parts and materials in accordance with the pharmaceutical industry's demanding standards. All RBP-machines are factory-set on delivery and can be commissioned immediately with minimum start-up effort. On request, we can offer you setup and on-site training services as well as validation support according to your specification. All RBP-machines come with a comprehensive set of documentation comprising easily understandable and richly illustrated operating instructions, a circuit diagram with part lists, the machine layout, the GS test certificate and an EU Declaration of Conformity including a list of the used materials. All RBP-machines and change parts are covered by a product warranty of two years. Of course, you can rely on our continued customer support after this period, should any problems occur.
